PROFESSIONAL SUMMARY

Passionate and self-driven Frontend Developer currently pursuing a Bachelor of Information Technology (IT) at Haramaya University. I specialize in building responsive, user-friendly, and modern web applications using HTML, CSS, JavaScript, React, Firebase, and Supabase.

I enjoy turning ideas into practical digital solutions that solve real-world problems through clean code, intuitive user interfaces, and excellent user experiences. Throughout my learning journey, I have built numerous real-world projects ranging from AI-powered applications and productivity tools to business management systems and educational platforms.

I am continuously improving my software engineering skills, exploring Artificial Intelligence, and learning modern technologies that help create scalable and impactful web applications.

TECHNICAL SKILLS

Frontend Development

- HTML5
- CSS3
- JavaScript (ES6+)
- React
- Responsive Web Design
- DOM Manipulation

Backend & Cloud

- Firebase
- Firestore Database
- Firebase Authentication

- Firebase Storage
- Supabase

Development Tools

- Git
- GitHub
- Visual Studio Code
- Chrome DevTools

Additional Knowledge

- REST API Integration
- Artificial Intelligence Integration
- Prompt Engineering
- Progressive Web Apps (PWA)
- UI/UX Design Principles

SOFT SKILLS

- Excellent Communication
- Team Collaboration
- Problem Solving
- Critical Thinking
- Leadership
- Business Idea Development
- Time Management
- Adaptability
- Creativity
- Continuous Learning

LANGUAGES

- English
- Arabic
- Afan Oromo

EDUCATION

Information Technology(IT) (*Currently Attending*)

Haramaya University

Expected Graduation: 2028

FEATURED PROJECTS

Golden Akhira Builder

A modern productivity web application designed to help users organize meaningful activities through an elegant and responsive interface.

GitHub:

<https://github.com/usamaawol/goldenakhirabuilder1>

Live Demo:

<https://goldenakhirabuilder1.vercel.app/>

Ethiopia Home Find

A responsive property listing platform that enables users to explore and discover homes across Ethiopia.

GitHub:

<https://github.com/usamaawol/ethiopiahomefind1>

Live Demo:

<https://ethiopiahomefind1.vercel.app/>

AI Note Takers

An AI-powered note-taking application that assists users in organizing and managing notes efficiently.

GitHub:

<https://github.com/usamaawol/ainotetakers22>

Live Demo:

<https://ainotetakers22.vercel.app/>

Shop Keepers

A business management application developed to help shop owners organize products, sales, and inventory.

GitHub:

<https://github.com/usamaawol/shopkeepers2>

Live Demo:

<https://shopkeepers2.vercel.app/>

Type Racer

A typing speed application that improves typing accuracy through interactive challenges.

GitHub:

https://github.com/usamaawol/TYPE_RACER

Live Demo:

<https://typeracer-snowy.vercel.app/>

Mood Truck

A mood-tracking application that allows users to monitor daily emotional well-being.

Live Demo:

<https://moodtruck.vercel.app/>

Random AI Quiz Generator

An AI-powered quiz generation platform that creates quizzes dynamically for learning and assessment.

GitHub:

<https://github.com/usamaawol/-Random-AI-Quiz-Generator>

Live Demo:

<https://usamaawol.github.io/-Random-AI-Quiz-Generator/>

Ethiopian Cities Weather

A weather forecasting application that displays weather information for cities across Ethiopia.

GitHub:

<https://github.com/usamaawol/Ethiopian-cities-weather>

Live Demo:

<https://usamaawol.github.io/Ethiopian-cities-weather/>

Quiz App

A responsive JavaScript quiz application featuring interactive questions and score tracking.

GitHub:

<https://github.com/usamaawol/quize-app>

Live Demo:

<https://usamaawol.github.io/quiz-app/>

My First Trail

My first frontend web development project showcasing the foundations of responsive web design.

GitHub:

https://github.com/usamaawol/my_first_trail

Live Demo:

https://usamaawol.github.io/my_first_trail/

ACHIEVEMENTS

- Developed 10+ real-world web applications.
- Built AI-powered educational and productivity platforms.
- Experienced in deploying applications using Vercel and GitHub Pages.
- Strong understanding of responsive web design and modern frontend development.
- Continuously expanding knowledge in Artificial Intelligence and cloud technologies.

CAREER OBJECTIVE

To obtain a Frontend Developer or Software Engineer position where I can apply my technical expertise, contribute to meaningful projects, collaborate with experienced professionals, and continue growing as a software engineer while delivering high-quality digital solutions.
